

LO: I know the functions of teeth.

LO: I can name and describe my teeth.

**Types Of Teeth**

Match the types of teeth with their names.

Molar      Canine      Incisor      Premolar

The diagram shows four teeth in cross-section, each with a pink gum line. From left to right: a Molar with a broad, flat top; a Canine with a sharp, pointed tip; an Incisor with a chisel-shaped edge; and a Premolar with a smaller, pointed tip. A logo in the top right corner says 'Whole Class' with two children's faces.
